

## Series 5C Pipe Cable Railing

A new spin on a classic, ready for any commercial or industrial setting

### A Brand New Look

- As Superior Aluminum cable railing continues to gain popularity, the Superior team has expanded upon the product line, leading to our all-new pipe cable railing!
- Have an industrial or commercial setting? Pipe cable railing matches the aesthetics of many of these locations in a new and unique way
- Many aspects remain standard between the square and pipe cable railing systems, most importantly the safety, durability, strength, and maintenance-free capabilities of the system
- Currently available in four baked-on enamel finishes:

White

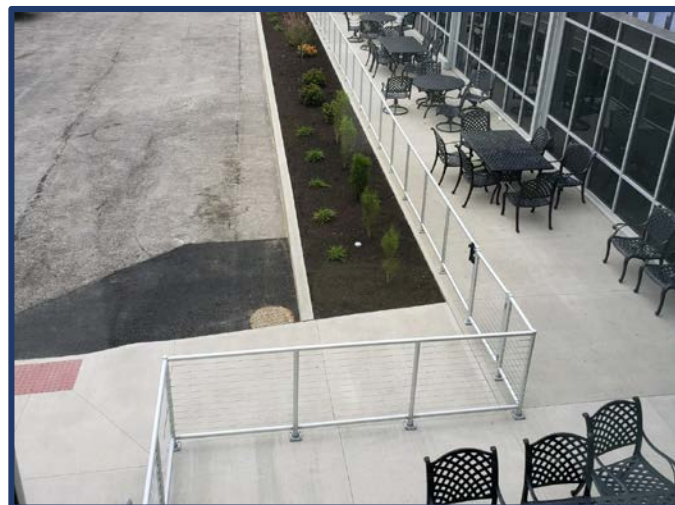

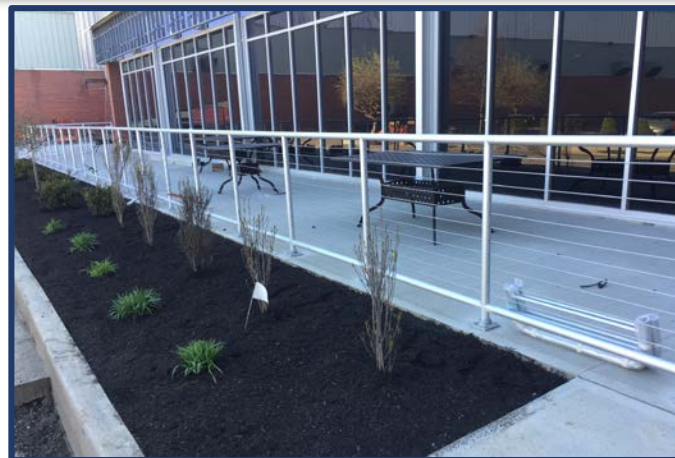

Black

Dk. Bronze

Anodized

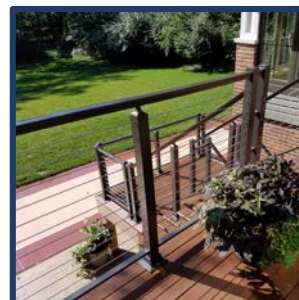

### Why Pipe Cable Railing?

- Code compliant
- Creates a virtually unobstructed view
- The unique design is a perfect complement to numerous architectural styles!

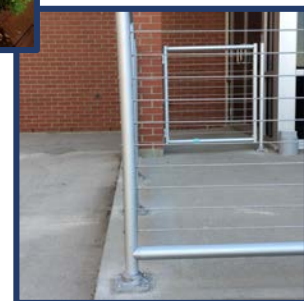

### Best Used For:

- Settings seeking an industrial yet stylish feel
- Manufacturing facilities
- Corporate environment
- Settings overlooking a scenic view
- Commercial or Multi-Family locations

All Cable Railing is built to exact customer needs....

...including new Pipe Cable Railing!
