

# SUPERIOR Privacy Fence

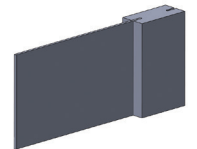

The newest way to ensure what is private remains that way

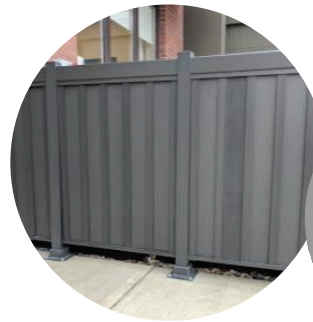

Privacy seems to become more difficult to come by each passing day... **but we are doing something to change that!**

- New Superior Aluminum Privacy Fence eliminates nosy neighbors, hides bulky machinery or dumpsters, and creates privacy for any location you want to hide from peering eyes.
- No messy, complex installation processes are required as each section is built pre-assembled with panels in place.
- The secret is the specially engineered tongue and groove setup that allows privacy panels to lock into the pickets and remain rigid.
- Wood, vinyl, iron, and other materials will rot, warp, and rust in just a few years, jeopardizing your project's aesthetics and your fence's structural integrity. Meanwhile, aluminum privacy fence will remain sturdy and beautiful for a lifetime with no maintenance needed!

Aluminum privacy fence is durable and maintenance-free, unlike other materials.

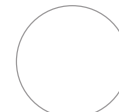

## Series 7V Privacy Fence is perfect for:

- Shared balcony units
- Hiding machinery
- Concealing dumpsters or other waste receptacles
- Private property seeking an added level of security
- Anywhere privacy is valued or sightlines need disrupted

## Finishes

Superior Aluminum Privacy Fence is built in three PPG Duracron paint finishes.

White

Black

Dark Bronze
